Knak Admin Certification

Certified Scrum Developer (CSD)

Certified Scrum Master (CSM)

ME, IN A NUTSHELL

I possess 20+ years of experience in web development with a proven history of utilizing strong digital skills, attention to detail, and smart work ethics to turn complex requirements into working systems.

PROFESSIONAL EXPERIENCE

Scotiabank

Email Developer | Nov 2022 - Present

Managed and executed high-impact email marketing campaigns for Scotiabank, Scotia iTRADE, Scotia Wealth Management and MD Financial by building email campaigns in Responsys and Knak.

Email Developer (Contract) | Sep 2021 - Nov 2022

Built retail email campaigns for Scotiabank in Oracle Responsys and used Litmus to test rendering across all major email clients.

Rogers

Digital Developer Lead | Jul 2018 - Feb 2021

As a Team Lead, I was directing a 12-member team of developers delivering solutions on rogers.com, fido.ca & r4b. My role centered on bridging the gap between technical execution and business goals—overseeing the full lifecycle. I facilitated the daily stand-ups, supported our Product Owners, dealt with capacity constraints and made sure our project timelines remained on track.

Web Developer | Apr 2011 - Jul 2018

Responsible for day-to-day web development operations and launched high level enterprise campaigns on rogers.com, fido.ca, SMB & ENT websites. In addition, worked with Akamai on vanity URLs and page redirects.

Web Developer (Contract) | Oct 2009 – Apr 2011

As a member of the content team, my responsibility was to work on high priority requests from multiple account managers to make content updates on rogers.com

Rogers Media

Web Producer (Contract) | Jun - Sep 2009

As part of an ad inventory, this contract involved implementing a digital display ad functionality across all Rogers-owned web properties, ensuring seamless delivery across consumer and business platforms.

Web Producer (Contract) | Dec 2008 - May 2009

As a web developer for Canadian Business, Profit & MoneySense magazine websites I focused on building reusable components and optimizing CMS workflows to empower editorial staff and streamline content delivery.

DTHREE

Front End Developer (Contract) | Jun - Sep 2008

Optimized the beer.com digital presence by executing daily content refreshes and implementing user-centric UI enhancements to elevate the digital experience.

Digital Embrace > Ministry of Transportation

Consultant / Developer (Contract) | Feb - Apr 2008

Converted the existing Ministry of Transportation website to the new look and feel using semantic SHTML. All the pages were validated and approved by the W3C standards.

Business Media

Front End Developer | Jan 2007 - Feb 2008

Coded over 120 approved graphic prototypes. Designed new graphical concepts. Worked closely with the sales team. Provided tech support to existing customers.

ACD Studio

Webmaster/Coder/Support | Jan 2006 - Jan 2007

This was my first FT job in the field where I sliced and coded over 100 approved graphical concepts. Provided technical support and assisted our existing customers.

Timur.ca

Freelance Professional | Jan 2006 - Present

Manage projects from start to finish providing services such as brand development, web design, search friendly websites, marketing, consulting & customer support.
